deployment, ongoing
technical support for
reliability and efficiency.

Remote conference call recording

The SoniClear HA1P Microphone Kit works with SoniClear software for professional-quality recording of Zoom, Teams, Webex, and other conferencing services. Also works with any softphone app.

Built-in Audio Mixer

The microphone has a built-in audio mixer that automatically routes the audio to the conference software and to SoniClear for recording. The resulting digital recording has maximum intelligibility on playback.

Simple Operation

It is easy to use the HA1 kit, allowing you to focus on the call. The only controls that are needed are the headphone volume knob and a microphone mute switch.
